Education

Cornell University — Ithaca, NY
Bachelor of Science in Public Policy — *Aug. 2026 – May 2030*

Howard High School — Ellicott City, MD
High School Diploma — *Aug. 2022 – Jun. 2026*

Experience

Director of Growth — June 2026 – Present
Courselynx — *Remote*

- Lead growth strategy, digital marketing, and campus outreach for a student-focused application with 10,000+ users
- Executed targeted social media campaigns across 10+ university communities, including Cornell, UC Berkeley, ASU, UCF, Florida State, Penn State, Michigan, and Rutgers, generating over 500 direct signups
- Built campus-specific social media presences reaching approximately 200-600 followers per account; promoted to Director of Growth with expanded responsibilities in hiring, strategy, and operations

Director of Management — July 2025 – September 2025
EGG Labs — *Remote*

- Managed application review and onboarding for 40+ student-run organizations, overseeing final selection and ongoing support for seven organizations
- Served as executive administrator for a 15+ person team, coordinating operations, communications, and execution
- Established partnerships with organizations collectively representing more than $300K in funding
- Built operational infrastructure from scratch, including Asana workspaces, email systems, and team workflows

Student Researcher — October 2026 – Present
Cornell University – US Ignite — *Washington, DC*

- Collaborating with a six-student Cornell research team on a technology commercialization project examining emerging technologies and federal investment
- Research disaster risk and resilience, evaluating AI-enabled prediction, sensing technologies, infrastructure vulnerabilities, and barriers to commercial adoption
- Contributing research and analysis for a 12-page white paper and interactive roadmap comparing technology readiness, commercialization barriers, and opportunities for federal and regional support

Advisor; Former Chief Strategic Officer — November 2024 – Present
Apollonian.Ai — *Wilmington, Delaware*

- Progressed from Head of Marketing and AI Development to CSO before transitioning to an advisory role
- Contributed to AI product development involving chatbot interfaces and generative image and storytelling systems
- Supported organizational growth and partnerships through marketing, outreach, grant applications, and product planning

Student Researcher — October 2024 – April 2025
AI Ethics Research – Dr. Paul Yi — *Memphis, TN*

- Conducted a seven-month research study examining AI ethics, focusing on algorithmic bias, moral reasoning, and developer intent
- Authored a 15+ page research paper published in the Research Archive of Rising Scholars (RARS)
- Presented findings at a Student Learning Conference at Johns Hopkins Applied Physics Lab examining the ethical implications of emerging AI systems
